DETAILED ACTION

Claims 1-21 are pending in this application and in condition for allowance.

Information Disclosure Statement

The information disclosure statement (IDS) submitted on May 19, 2005 was correctly filed. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement was considered by the Examiner.

Reasons for Allowance

Applicant's invention is drawn to a process for the preparation of (all-rac) α -tocopherol via an acid-catalyzed reaction of trimethylhydroquinone with isophytol or phytol in a solvent. The preparation of (all-rac) α -tocopherol is known in the art; however, there is no art on record which discloses a method of preparing (all-rac) α -tocopherol using a methane trisulphonate catalyst, as Applicant is now claiming.

There is no prior art which is relatively 'close' to Applicant's claimed invention, and Applicant's IDS and Specification disclose a sufficient amount of references to paint a picture of where the art stood prior to Applicant's acid-catalyzed method of preparing (all-rac) α -tocopherol. Therefore, no 'closest prior art' will be mentioned in this Office Action, and the record speaks for itself.

Considering the aforementioned reasons, this Application is ALLOWED.

Application/Control Number: 10/535,603

Art Unit: 1626

Telephone Inquiry

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael P. Barker whose telephone number is (571) 272-4341. The examiner can normally be reached on Monday-Friday 8:00 AM- 5:00 PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mr. Joseph K. McKane, can be reached at (571) 272-0699. The unofficial fax phone for this group are (571) 273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is viable through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
